Re: Your letter of 12 November 1985.

Thank you very much for your response to my note of October 22nd to the DCI.

Please examine the sample of NFL Challenge and the related support materials. I trust that you will see that the CIA can gain a tremendous amount in terms of public education and public support from being involved in "A Matter for Counter-Intelligence".

Especially see the PC World survey: This demographic group is the core educated support the Intelligence Community needs. Our counter-intelligence simulation has already gathered significant industry interestimits packaging and literature will be as good or better than that of NFL Challenge.

The NFL is happy about NFL Challenge; the CIA will also be happy with an involvement in the next Xor product. The name can be simply "CIA Counterintelligence".

I would like to have the opportunity to make a presentation to you, your section chief, the Chief of the Counterintelligence Staff, and the DCI or DDCI, regarding what Xor has in mind for "CIA-Counterintelligence", how we can work together, and other details.

I also encourage you and/or the DCI or DDCI to contact Mr-Bob Carey, president of NFL Properties, for his feelings about the NFL Challenge project. He's at 212-838-0660.

Again; the @M "FBI" series was a hit on network television and a bonanza for the public image and understanding of the Bureau; the Xor "CIA Counterintelligence" software package will be same for the Agency. I will call you in two weeks to hear your comments and suggestions.

Thank you in advance for your assistance in this matter.

Sincerely,

G. E. Diamond Central Manager
